Gloves, Vinyl Exam PF, Large 10bx/Cs		60	\$1,579.00	

We need to get proper Par Levels and implement them.

Is there a way we can cut this down?

How often are they using cups for what purpose and for which Departments? Suggest switching to 7oz. They tried it before and apparently were not satisfied with quality. Send sample again.

We need proper Pars to determine correct usage.

ozzie:
Seems slightly excessive.

Lots of gloves, wastage?
Why is kitchen using them?
Should be food service Gloves.
